### **Iowa Concerts April 2010**

**Bryan Moyer Suderman** has a gift for writing songs that are at once simple, catchy, profound, and fun. They are deeply scriptural, musically memorable, and readily singable. Since the release of his first studio album *God's Love is for Everybody* in 2002, Bryan's "songs of faith for small and tall" have become favorites of families and congregations across North America and beyond. His songs have been published in numerous hymnal, songbook, and curriculum resources, including the Gather Round Sunday School curriculum, Leader magazine, and the Church Hymnal 4th Edition of the Church of Scotland. Bryan's newest release, "A New Heart," is his 4th CD on the SmallTall Music label ([www.smalltallmusic.com](http://www.smalltallmusic.com)).

Bryan has many years of experience performing and inspiring people to sing, whether in congregational settings, house concerts, or large ecumenical conventions and conference settings including Mennonite Church Canada/USA assemblies and Mennonite World Conference Assemblies in Zimbabwe (2003) and Paraguay (2009). Audiences respond to the warmth of his voice, the contagious nature of his songs, and his signature interactive style of singing and song leading.

Bryan lives near Toronto, Ontario with his wife and son . He travels extensively, mostly by train, living his vocation of "building up the body of Christ by creating and sharing songs of faith for small and tall." Bryan will be performing a series of events in Iowa from April 16-18:
